

Paramedic:

Essential Functions

- Provides routine medical care for all residents.
- Obtains and accurately transcribes physician's orders and any changes in orders as situations occur.
- Updates any changes in medication orders in a timely manner in the EMAR system.
- Administers and documents medications administered as ordered by the physician.
- Performs controlled medication shift count with incoming Nurse/Medtech and reports any discrepancy to Clinical Director.
- Makes necessary entries in daily nursing notes, Therap, condition sheets, and wound tracking forms to reflect the care and condition of residents, completing monthly summaries/quarterlies as assigned.
- Conducts shift report in a professional, organized manner so that all pertinent information is communicated to the oncoming nurse.
- Communicates with physician and Clinical Director any significant medical problem or change in condition.
- Maintains a check of medical and health-related supplies and informs the Clinical Director of any items that need to be ordered prior to the complete exhaustion of those items.
- Orders medications and treatments according to the Pharmacy Policy and Procedure Book.
- Maintains effective communication and planning efforts with the Clinical Director and other personnel.
- Responds proficiently to emergency situations and other unusual circumstances.
- Notifies the Leader/Nurse On-Call when situations arise that need clarification.
- Provides for effective communications and work relationships with shift employees.
- Provides in-service training and staff competency checks as needed and directed.
- Performs other duties as necessary and/or assigned.
